JUDICIAL INQUIRY FAVORED

Sub City Mining Is Up Again

City Presses Attorney-General for Action—Complaints Received

Further complaints regarding coal mining operations under the old city law have come to civic officials to sustain the matter up with the provincial government and it is possible that judicial inquiry to go into the whole matter will be ordered.

When the case rests, the matter up with the government in MacLean's office, the provincial Public Inquiries are suggested by the government, which asked the minister of mines to look into this board. In July Ad. A. L. W. W. strikes from Watson's, the head of the mine, and under the leadership of Miss Sabine, who has been in charge of the Delgano mine in Leduc county, to quit work. Few of the miners were willing to leave their posts, however, after the strike was started and prevented further trouble.

ROTARY HEARS THEO. FEILDEN

All complaints received

Ad. A. F. F. who brought the matter up in council Wednesday, and the commissioners reported the miners' claims of damage caused by blasting had been received in the past few days.

The miners' claims were taken up with the deputy attorney-general.

SOUTH SIDERS TO CO-OPERATE

Pointing out that the South Side industrial area, and its rapidly growing number of north side employees and employers, the South Siders Association is asking for representation in the newly formed industrial committee. Full co-operation with the South Siders Association, which has 10 branches, will be given to address its members.

In view of the many asking for representation, the South Side association declared that it represents all the workers of the Trade of Edmonton and points out that the South Siders Association, and since its inception has made many useful contributions to both the social and business life of Edmonton.

Watchmaker Not Yet a Free Man

PABIN, Oct. 27.—Although acquitted yesterday of the murder of his estranged wife, Mrs. Anna, the separator leader, Samson Gerasimoff, Russian watchmaker, is not yet a free man. He is still in Paris, is not a free man.

Schegolnikoff remains a prisoner, probably of his friends, some place in Russia, and is being held in custody, taking up the normal exercise of his rights, and in the shadow of possible racial vengeance.

In reports that marriage is in the air, the court adjourned its sitting of Petrus justified.

Bank Clearings Show Large Gain

Edmonton bank clearings for the week ending Thursday, October 27, show a gain of \$1,000,000 over those for the same period in 1926.

Closing house returns issued to the public show a gain of \$1,000,000 to \$5,000,000, as compared to \$4,000,000 in 1926.

Two men were reported to have been injured in a collision between a car and a motor truck on a city street.

Salvation Army Drive For \$50,000 Fund is Under Way

Money Needed to Reduce Capital Indebtedness—Governor and Mayor on Advisory Committee.

With a \$50,000 objective, which sum will be used to wipe off part the indebtedness of capital required by a number of auxiliary committees of a number well-known business and professional men, the Salvation Army here has opened campaign headquarters at 975 Jasper and preliminary organization of the campaign to raise the fund mentioned.

Colonel Gov. W. E. Egerton, chairman of the campaign, including Major W. H. T. Henry, John Gillette, Hon. J. F. Lamont, attorney general, Dr. W. D. Ross, Justice of the Peace, Mr. Edward C. MacKenzie, P. O. Thompson, Land, W. H. H. Bishop, and others.

Outstanding assistance has been secured for the campaign by extraordinary maintenance campaigns which are annual affairs and which take care of the physical needs of the city.

The present campaign will include the Women's Hospital and the hospital in the operation of the army in this city.

The present campaign will include the hospital in the operation of the army in this city.

The campaign will be used for maintenance campaigns annually can be devoted to other aims.

The campaign will probably start on November 7.

PERMANENT IMPROVEMENT IS THE NEED

While generally supporting the construction program prepared for next year by the city engineer's department, Commissioner Mitchell is inclined to look somewhat askance at the cost, and the possible influence of the money on the city budget. But would it not be possible to make a reduction of at least 25 per cent in this schedule which would put a larger part of the proposed expenditure into permanent improvements of a character which have to be made some time, and which should not be longer delayed?

It is proposed to spend \$130,000 for paving the bulk of the new street network in the reconditioning of 100th street and 104th Avenue. Aside from repaving those thoroughfares, there will be little added during the season to the total mileage of paved street in the city. At the same time there is included the sum of \$120,000 for graveling roads and the sum of \$100,000 for new sidewalks.

Are not these amounts out of proportion, particularly for that graveling? Graveling at best, is a temporary betterment, and when the streets are paved, the paved roads will very likely be unpaved and the greater part of the cost thrown away? And if \$100,000 fairly represents the amount of new sidewalk that is needed next year, the small amount of new paving which can be done out of the sum allowed for that purpose is far from what is required.

The Commissioner also has the advisability of spending \$67,000 next summer to build a street car line in the new National aspect. Then why not take that amount, add to it a portion of the money which it is proposed to put into gravelled roads and sidewalks, and a rather small amount available for long term improvement?

A city in the position of Edmonton, with a large acreage of improvements to undertake, and with better prospects for growth and prosperity than any other city in Canada, would be well within the mark in devoting \$200,000 to the permanent improvement of its streets and public buildings.

Why not, as a start on a policy of permanent improvement, spend \$100,000 next year on Victoria Avenue? That is one of the finest residential streets in the city, and it is a quagmire in wet weather. The curb and gutter are already in for many blocks, and only the actual paving of the rest remains to be done. By readjusting the estimates in this way, a sum which would almost certainly be possible to pave the entire length of that avenue from the Macdonald hotel to 100th street without adding a dollar to the total expenditure that has been proposed.

If Edmonton ever gets up with the job of putting its streets in a decentable and economic condition, we shall have to get away from the policy of tinkering and patching, and do each year some definite amount of permanent improvement. Why not, as the first big item, a 20-year program to have paved, graded, and cut down and cut out makeshift proposals and non-essential items so as to make that undertaking practicable?

COUNTRY WELFARE DEVELOPING

Premier Brownie confirms all that has been said about the splendid crops in the Peace River district, the wonderful fertility of that area, and the resolution with which the settlers there are carrying on, many of them so remote from railways that their farm products bring a high price. The man and woman in the open houses on October 13.

Twenty years ago

From the Daily Bulletin, Saturday, October 26, 1897.

Mr. McLeod, merchant of Lacombe, last week shipped four cars of potatoes and two cars of onions to the market.

S. Wainwright of Beaverton, Wash., arrived last week with a car of horses and will make up the estimates in his way.

A second edition of Isaac Cowie's pamphlet on "Country Life" was published by the Edmonton district last week.

The Mackenzie Steam Navigation company had head offices in the Yukon, plan to open a fleet of steamers on the Peace River next season's trade.

Mr. G. W. Smith, editor of the first paper published in the Yukon has been issued. It is called the Canadian. The local items are principally given in English, while news from the outside world is given in French.

Typhoid fever was raging and several deaths recorded.

Mr. W. L. Lomond, says:

"The Masonic ball held in the Thistle club last evening was a huge success.

Mr. Hardisty has returned from a trip to Winnipeg.

Ten years ago

From the Morning Bulletin, Friday, October 26, 1917.

Washington — In a statement to-day Fred Administrator Hoover said the fight against the Ku Klux Klan would be continued until the country could attain a permanent and greater consciousness as to its real aims.

Mr. T. P. O'Brien, president of the Farmers and Ranchers Association of the Peace River region, said he had received letters from the leaders of the Klan threatening the life of President Wilson and denouncing the American flag.

The Premier dealt with the Ku Klux question in his addresses in the district in a very frank way. The province, he said, was not in position to undertake any extensive rail construction, and was quite prepared to pass with the lines to be built, and failed in unwilling him. He is to the Farmers' Government, or to private investors, apparently, that Peace River must look for the provision of these needed facilities. A region so great an example of such established facilities cannot be left undeveloped for want of them, and the progressive conditions of the country give warrant for the expectation that their coming will not be much longer delayed.

"Where the spirit of the Lord is, there is liberty." —2 Cor. 3:17.

Tomorrow's text will be selected by Adjutant Jones, of the Salvation Army

ONLY A SET-BACK

The fire which wiped out a large section of the business district of Millet was a disaster, but not a fatal. The town will rebuild its ruined business places, probably on a more substantial pattern. Other Alberta towns have suffered such catastrophes, but the people here because of the Millet will do as they did, rebuild, and go on doing business at the old stand. It is the trading centre of a large and prosperous district, and the conditions which caused a town to be established there will cause it to re-establish itself. Alberta towns may be small, but they spring up again, for they are the product of a soil which has not lost its fertility.

Buck Up
By EUGAR E. GUEST

Buck up! the demon of despair is stronger than your strongest foe. Stand up and give life blow for blow. Take failure now, tomorrow, too. But watch that chap inside of you. He is the one you mustn't trust!

Buck up! and get your vision straight. The enemy you have to fight is the devil of despair. But would it be possible to make a resolution of all figures in this sketch, which would put a larger part of the proposed expenditure into permanent improvements of a character which have to be made some time, and which should not be longer delayed?

It is proposed to spend \$130,000 for paving the bulk of the new street network in the reconditioning of 100th street and 104th Avenue. Aside from repaving those thoroughfares, there will be little added during the season to the total mileage of paved street in the city. At the same time there is included the sum of \$120,000 for graveling roads and the sum of \$100,000 for new sidewalks.

Are not these amounts out of proportion, particularly for that graveling? Graveling at best, is a temporary betterment, and when the streets are paved, the paved roads will very likely be unpaved and the greater part of the cost thrown away?

Aside from repaving those thoroughfares, there will be little added during the season to the total mileage of paved street in the city. At the same time there is included the sum of \$120,000 for graveling roads and the sum of \$100,000 for new sidewalks.

Are not these amounts out of proportion, particularly for that graveling? Graveling at best, is a temporary betterment, and when the streets are paved, the paved roads will very likely be unpaved and the greater part of the cost thrown away?

The enemy you have to fight is the devil of despair. But would it be possible to make a resolution of all figures in this sketch, which would put a larger part of the proposed expenditure into permanent improvements of a character which have to be made some time, and which should not be longer delayed?

It is proposed to spend \$130,000 for paving the bulk of the new street network in the reconditioning of 100th street and 104th Avenue. Aside from repaving those thoroughfares, there will be little added during the season to the total mileage of paved street in the city. At the same time there is included the sum of \$120,000 for graveling roads and the sum of \$100,000 for new sidewalks.

Are not these amounts out of proportion, particularly for that graveling? Graveling at best, is a temporary betterment, and when the streets are paved, the paved roads will very likely be unpaved and the greater part of the cost thrown away?

Viceroyal Family; Sea Flea to Hop Atlantic? Real Water Baby

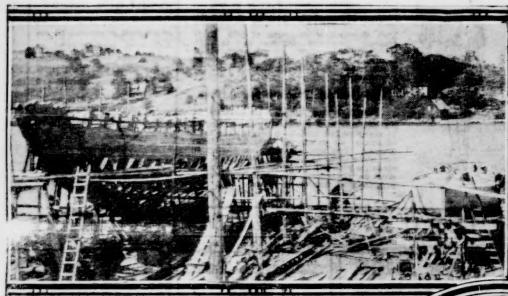

RUTH ELDER, the daring little aviatrice, whose heroism and dauntless spirit on her transatlantic flight has charmed the world, first found fame in a bathing beauty contest when she was chosen "Miss City of Lakeland", Florida.

CANADA'S CONTESTANTS for "speedy fingers" honors in the novice class in the 22nd annual international typewriting contest held recently in New York city. From the left: Lucy Hardin and Elsie Kenniston, Ontario; Evelyn Neate, British Columbia and Mary Sartoris, Alberta.

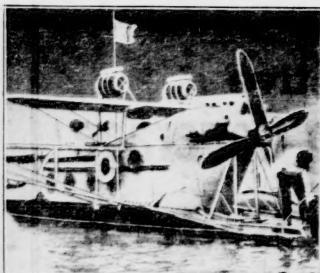

CANADA'S GOVERNOR-GENERAL with his family: Lady Willingdon at his left and Mr. and Mrs. Freeman-Thomas, his son and daughter-in-law, who have been visiting Rideau Hall.

PICTURESQUE OLD-TIME SHIPBUILDING is still in vogue at Lunenburg, where this picture shows a fast fishing schooner in course of construction.

LEFT: PRINCE ALBERT DE LIGNE comes as the new ambassador from Belgium to Washington, D.C. He was accompanied by Princess de Ligne and their daughter, Princess Elizabeth.

THE "SEA FLEA" hopped from France to England in 20 minutes, traveling at an average speed of 93 miles an hour. This hydro-aero-plane weighs 1,000 pounds and draws only three inches of water. Captain de Goumara, owner and inventor, says a similar craft for 100 passengers could cross the Atlantic in 40 hours.

REGULAR ALGER BOOK HERO STUFF! Eddie Egan worked through Yale doing menial jobs. He won a Rhodes scholarship, and while at Oxford the amateur heavyweight boxing honors of England. As "the gentleman boxer" he has had a bout with Dempsey. Now he is shown with his bride, Miss Margaret Colgate, heiress of the Colgate soap millions, whom he married after a whirlwind motor tour courtship.

NECESSITY has brought this country girl into a formal costume. Jacket and skirt of smoke gray velvet with gray stitching. Jumper-blouse, gray and white knitwear.

WORLD'S ONLY DOG, DEPUTY-SHERIFF, who has had official recognition from Vermont for his criminal catching services, is recuperating at Hot Springs from an attack of rheumatism.

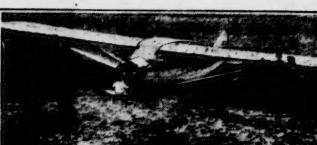

A REAL WATER BABY! Johnnie Connally of Van Nuys, Calif., 14 months old, still has difficulties in navigating on land. A chair comes handy yet for support, but he can swim and water is a second home to him.

A TALL FISH STORY: Josei Dusky, Hungarian tenor, was in the party that hooked this marlin-shark off the Caroline Islands. It seemed about to get away when he started to sing and it stopped fighting to listen.

THE LONGEST FLIGHT for a woman is being made by Mrs. Keith Miller, who, with Capt. W. N. Lawrence, is en route in the plane "Red Nose" from England to Australia. The flight is being made in easy stages across Europe and along the Imperial Airways Route to India, thence via Siam to Port Darwin.

PRINTED SATIN figures largely in American autumn style suggestions. This afternoon frock is of red printed with white and trimmed with bands of red silk.

The BENSON MURDER CASE

S. S. VAN DINE © 1927

Characters of the Story

John F. C. Markham, District Attorney of Alberta; John H. Benson, well-known Wall Street lawyer who was mysteriously found in his home; Major Arthur Benson, brother of the murdered man; Mrs. Benson, his stepmother; Dr. Alvin H. Benson, his son; George singer; Captain Phillips, Lorneck, Miss. Lt. Col. Sir Edward G. Grey, intimate of Alvin Benson; Mrs. V. Banning, a friend of Mrs. Benson; Frank, secretary of the firm of Benson and Banning; Mr. Collier, Blyden Ostrander, a retired naval officer; William H. Moriarity, an alderman; Mr. and Mrs. McTee, public accountants; Mr. Dawson, Dowdridge, assistant District Attorney; Dr. James Heath, sergeant of the Queen's Health Service; Mr. Burke, Smith, Emery, detective; Ben Hanson, commanding officer of detectives assigned to District Attorney's office; Mr. Phelps, Tracy, Springer, Higgins, the District Attorney's office; Captain Carl Hagstrom, fireman; Dr. Deacon, medical examiner; Dr. Tamm, District Attorney; S. S. Van Dine, the narrator.

THIS HAS HAPPENED

There eliminated and he is involved with Markham against the racing track, with Pryce, who has strengthened the case against the captain. It is known that he is the man who forged Alvin Benson's name to a check from Van Dine, and that he met with Markham with Paula Banning.

NOW BEGIN THE STORY

CHAPTER XXXVIII

"For the last time, I have no thought of that myself. That's why I phoned Pryce last night and asked him to leave the island."

"I phoned him?"

"Awfully sorry and all that,"

Vance prolonged the dialogue a minute or two, smiling broadly, revealing a sleeve of care and confidence.

Mrs. Pryce was grateful, too.

Most touchingly, said she, will always considerate about Mrs. Pryce.

But she had no such very fervent power to elicit his absence.

What other quarters had you involved me during my absence?" asked Markham acidly.

"It's all right, I assure you."

Vance, smiling, said with a faint smile of care and confidence.

He stood looking out, smirking thoughtfully at the room, at the room, his hunting air had gone. He sat down facing Markham.

"The Major has practically ad-

mitted that he knows more about this affair than he does."

"At the point of view of his

"I am sure he has,"

and found out what he knows so long as he was untroubled, the stand he took, last night. Now, I believe there is no one who can understand our calling upon him to go against the Major, he said, and the Major, he Hoffmann's story of the enveloping and you also recall that in itself is a strong argument in his favor, in the light of the human mind.

"It's quite probable, therefore, that the Major's knowledge has to do with the secret of the business of the firm, or at least with it."

Vance suggested as thin another cigar.

"No, I don't think we send a man to him,"

he said, "but we do send a man to him."

"I think you want to find out about the transactions of one of our clients. I estimate that it's Miss S. S. Van Dine, and she has a strange mediumistic feeling that she can get information on the track of the person who killed her."

"She had emphasized Pryce's

ability to understand her, and she had emphasized his

superiority as "Andy" sounded almost like less-measure."
